

Learn. Play. Grow.

Our mission

With powerful education we help you discover who you are, what you are able to and want to achieve and how to be confident.

Our vision

We prepare the pupils for their future with passion and expertise and by working together with them as well as their parents. From kindergarten to group 8, we help children to gain knowledge and develop the skills needed in a rapidly changing society. Through a broad range of lessons, we let our pupils discover their own talents. We motivate them to get the most out of themselves. Doing this in the safe environment of our two school locations, where we have the necessary time and attention for each other and where everyone can be just who they are.

Our goals

The quality of our education is high. We are proud of that and we strive to maintain it. However we are also ambitious and continue to improve ourselves. In the coming years we will focus on 5 building blocks.

Education

We set the bar high when it comes to the quality of our education.

These are our goals:

- Focus on the basic skills of language, arithmetic, reading and digital literacy
- More collaborative learning
- Quality boost for our nursery education and a smooth transition from group 2 to group 3

Didactic skills

The didactic skills of our teachers ensure that we transfer knowledge well to our pupil.

These are our aspirations:

- Powerful teaching
- Lessons that match the learning goals and the development phases of the children

Social skill development

Helping our pupils grow into balanced and allround developed citizens.

Our goals:

- A broader offering on conscious themes
- More cross-class work
- A social issue theme week every year
- Increase pupil's involvement and active pupil councils
- Safeguarding the social-emotional development of our pupils

Executive functions

We also call executive functions brain powers. These are the regulatory functions in our brain that makes us aware of our behavior and partly determines our success and happiness.

This is our ambition:

- Gain more knowledge about brain powers

To collaborate

We work transparently with pupils, parents and external parties within short communication lines.

These are our ambitions:

- Triangle conversations between teacher, pupils and parents
- Active support for parents at school
- Collaborate more intensively with partners

Our core values

Different yet equal

We are all different yet treat each other as equals. We embrace diversity and have broad frameworks where everyone can be themselves.

Flying forward

When we want to accomplish something we give it 100%. This way we achieve a lot and get the best out of ourselves and each other.

Contact first

We believe open and sincere contact with each other is important. We take the time for that, because we care about the well-being of young and old.
